

Foreign Exchange Market

(August 2016)

In the reporting period, the exchange rate of the US dollar slightly increased from KGS 67.9699 to KGS 68.8990 per USD (+1.4 percent) compared to the previous month. At the same time, an increase in currency supply on the part of the market participants was due to an increase in the volumes of currency inflow to the country through the money transfer systems and the US dollars received from conversion operations carried out by the banks.

The total volume of transactions on the purchase and sale of foreign currency increased as compared with the previous month by 22.3 percent, to KGS 42.4 billion. The reason was the significant increase in the volume of cash transactions conducted by the commercial banks to KGS 21.0 billion (+28.4 percent) and the increase in business activity to KGS 16.7 billion (+32.8 percent) in the segment of cash transactions conducted by the exchange offices, on the other hand, the decrease was observed in the segment of non-cash transactions by 18.3 percent, to KGS 4.7 billion.

The total turnover of interbank currency trading decreased by 16.7 percent as compared to the previous month and amounted to USD 63.7 million. The reason was the decrease in the interventions performed by the National Bank on purchasing foreign currency by 76.6 percent to the amount of USD 6.7 million. The volume of transactions conducted between the commercial banks increased by 26.9 percent, to USD 41.9 million.

In the reporting period, the National Bank did not conduct SWAP operations with the commercial banks.

By types of currencies, there was a multidirectional trend. At the same time, the equity ratio of currency in the total volume of transactions was distributed as follows: the share of transactions in USD made 58.1 percent (-1.5 percentage points), the share of transactions in EUR – 1.7 percent (-0.8 percentage points), the share of transactions in RUB – 38.9 percent (+3.3 percentage points), in KZT – 1.3 percent (-1.0 percentage point).
