

NBKR Notes (August 2017)

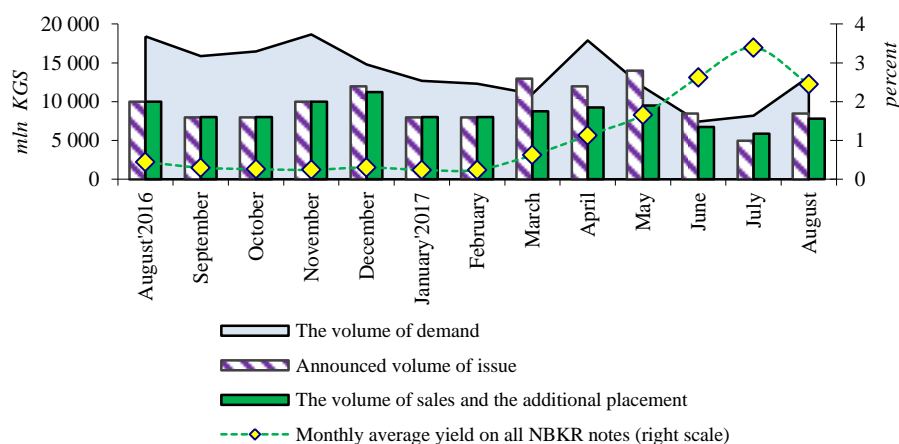

In the reporting period, the National Bank held five auctions for notes placement with the total volume of the announced issue amounting to KGS 8.5 billion, having increased by 70.0 percent compared to the previous month.

At the same time, demand exceeded supply by 55.3 percent; therefore additional placement of 91-day notes in the amount of KGS 340.0 million was held. The average auction¹ volume of demand for the notes of the National Bank of the Kyrgyz Republic increased by 28.9 percent during the month and amounted to KGS 2.6 billion. In line with the National Bank of the Kyrgyz Republic monetary policy, the sales volume in the reporting period in order to withdraw excess liquidity of the commercial banks was presented by 7-day, 28-day and 91-day notes, the total volume of placement, taking into account additional placement, amounted to KGS 7.8 billion (+32.5 percent per month).

At the end of August 2017, the volume of notes in circulation decreased by 27.6 percent year-to-date and amounted to KGS 3.8 billion. The commercial banks with the share of 100.0 percent (+1.9 percentage points year-to-date) were the holders of the National Bank of the Kyrgyz Republic notes. In the reporting period, the average auction volume of sales increased by 23.2 percent during the month and amounted to KGS 1.5 billion.

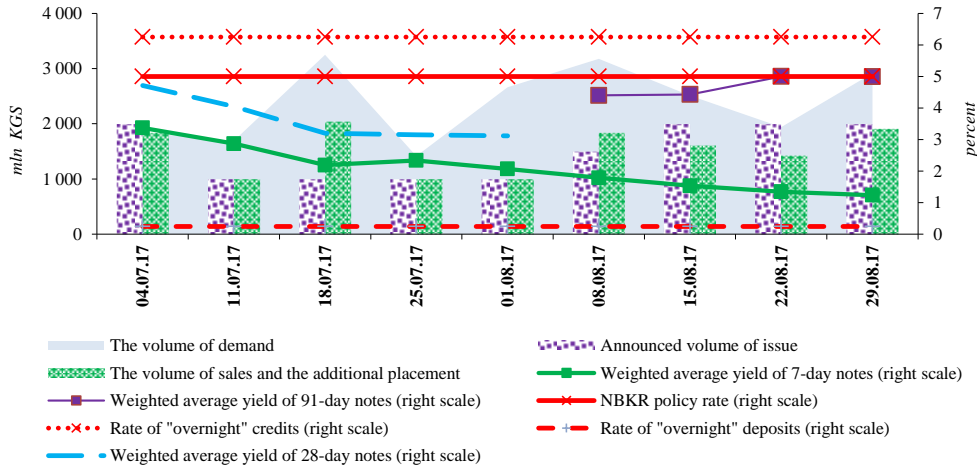

Thus, the weighted average yield of the National Bank of the Kyrgyz Republic notes amounted to 2.5 percent in the reporting period, having decreased by 0.9 percentage points during the month due to a declined yield of 7 and 28-day notes. Thus, the weighted average yield of the National Bank 7-day notes made 1.5 percent (-1.3 percentage points). At the same time, it should be noted that the yield on 7-day notes was within the policy rate corridor. The boundaries of the interest rate corridor were also retained: the top boundary of the interest rate corridor (the rate on “overnight” credits) was at the level of 6.25 percent, and the bottom boundary (the rate of “overnight” deposits) - at the level of 0.25 percent. The weighted average rate on 28-day notes was at the level of 3.1 percent (-0.8 percentage points) and on 91-day notes – 4.7 percent.

Graph 1. Demand and placement of NBKR notes

¹ This index is used instead of total volume of demand/supply for a month as the quantity of auctions held during the month is not constant.
