### ***Balance of Payments of the Kyrgyz Republic***

"Balance of payments of the Kyrgyz Republic" is issued by the National Bank of the Kyrgyz Republic. The legislative basis for the balance of payments are the Law of the Kyrgyz Republic as of July 29, 1997 No. 59 "On the National Bank of the Kyrgyz Republic" and the Resolution of the Government of the Kyrgyz Republic as of November 3, 2000 No. 645 "On measures to improve statistics of the balance of payments of the Kyrgyz Republic". This document reflects last tendencies in external sector development and shows statistical data on the balance of payments, external trade, international reserves, external debt and international investment position, as well as construction methods of balance of payments and informational database. This document is published 4 times a year - in January, May, July and October and has 3 language versions: Kyrgyz, Russian and English.

**Last day for update of data for the present publication is January 20, 2013.**

**Annotation symbols and notes:**

- ... means the absence of data;
- means, that indicators/ratios are equal to 0 (zero) or insignificant;
- is set between years or months (e.g., 1994-1996 or January-June) and means, that all years and months are covered by the shown dates.

Deviations in last digits may occur because of rounding numbers when summing up.

In regard with the possible changes in accounting methods or historical data, which are used in the given document, correction of earlier published data is acceptable. Therefore, 10 years period can be accounted as "open period".

## THE CURRENT STATUS OF THE BALANCE OF PAYMENTS

**Chart 1. Current Account**

in percent of GDP

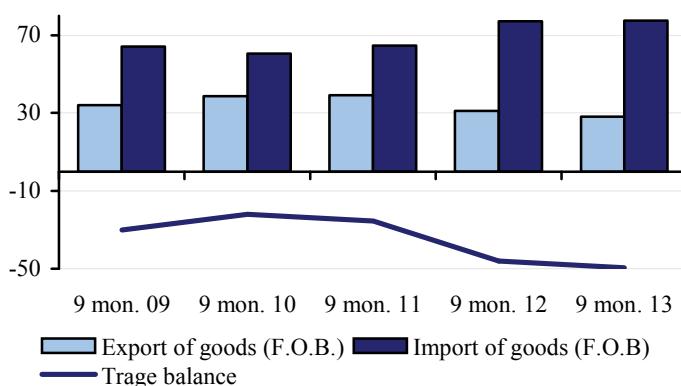

Economic growth, observed in the Kyrgyz Republic based on the results of nine months of 2013, was accompanied by dynamic growth of import. As a result, despite inflow of money transfers, the current account deficit remained significant (24.6 percent to GDP) and amounted to USD 1 415.4 million. According to the estimates of the National Bank, current account deficit taking into account the additional estimates of the NBKR on re-export of petroleum products and export of services amounted to USD 862.0 million (15.6 percent to GDP).

### TRADE BALANCE

Within nine months of 2013, **the trade balance** of the Kyrgyz Republic formed with a negative **balance** and amounted to USD 2 652.6 million (49.5 percent to GDP), having increased by 21.7 percent compared to the corresponding period of 2012.

**Chart 2. KR Trade Balance**

in percent of GDP

The main reasons for deterioration in the trade balance are the following factors:

- decline in the export of textile production and some agricultural products;
- growth in the import of petroleum products.

**The external trade turnover** in FOB prices increased by 10.2 percent in the reporting period and amounted to USD 5 250.2 million (105.6 percent to GDP).

**Export of goods excluding additional estimates** in FOB prices amounted to USD 1 057.5 million.

**Export of goods in FOB prices including additional estimates** of the NSC and the NBKR formed in the amount of USD 1 298.8 million (28.1 percent to GDP), having increased by 0.6 percent as compared to the corresponding index of nine months in 2012.

It should be noted that positive dynamics of export is conditioned by increase of gold supplies and re-export, which indicates existing issue of low diversity in domestic export. **Export, excluding gold and re-export**<sup>1</sup>, decreased by 9.2 percent and amounted to USD 578.8 million. The most significant decrease of export was observed under the "articles of apparel and clothing accessories" and "electric current" article, which is conditioned by decrease in the volume of production in such export-oriented sectors of economy, as garment industry and production and distribution of electricity.

<sup>1</sup> In FOB prices, excluding additional estimates of the NBKR and the NSC; within nine months of 2013, export, excluding gold with additional estimates of the NBKR and the NSC, amounted to USD 1 001.0 million.

\*NSC data in f.o.b. prices, excluding estimates of NBKR and NSC

<sup>1</sup> Export of on-bord stock

The structure of export did not suffer significant changes in the reporting period. The major share of export (28.2 percent) is accounted for the section "goods and transactions, not included into other SITC categories". Almost all volume of this section is occupied by non-monetary gold. Approximately the same share is accounted for machines and transportation equipment (mainly re-export), industrial goods, classified by types of material (rolled glass, rubber tires, Portland cement, etc), food products and live animals, mineral fuel and similar products (jet kerosene, electric current, etc.) and various finished products (mainly articles of apparel and clothing accessories).

**Table 2. Structure of Import by the SITC sections**

(unit weight, in percent)

Group of Products	9 mon. 09	9 mon. 10	9 mon. 11	9 mon. 12	9 mon. 13
<b>Total</b>	<b>100,0</b>	<b>100,0</b>	<b>100,0</b>	<b>100,0</b>	<b>100,0</b>

Goods and transactions, not included in other SITC categories	30,7	42,0	53,2	25,4	28,2

\* NSC data in f.o.b. prices

In the sectoral structure, the major share of export of the Kyrgyz Republic is accounted for the products of **processing industry** (metallurgical, textile and garment industry) and **agriculture**.

Increase of **metallurgical production** by 1.9 times<sup>2</sup>, primarily due to rehabilitation of precious metals fabrication, contributed to growth of gold export. Despite decline of average contractual prices by 10.8 percent<sup>3</sup>, increase in the physical volume of exported gold by 25.2 percent resulted in growth of cost volume of exported gold by 11.8 percent.

Increase in supplies was observed on other goods of metallurgical production, except for ferrous waste and scrap.

**Table 3. Export of major products of metallurgical production**

\* NSC data in f.o.b. prices, excluding estimates of NBKR and NSC

Within nine months of 2013, due to change in the rules of goods' import to the territory of the Kyrgyz Republic<sup>4</sup> and decline in demand for products of garment industry in the foreign markets, there was decrease in production<sup>5</sup> and export of certain products of **textile and garment industry**. Thus, in the reporting period, the export of articles of apparel and clothing accessories constituted USD 86.9 million, having decreased by 30.4 percent as compared to the level reached within nine months of 2012. The most significant decline of export in this sector was observed in the largest article of the aforementioned group of goods - "women's and girls' apparels of textile fabrics" (decrease by 30.3 percent or by USD 24.8 million). Decrease in export of these goods was conditioned by decline of contractual prices and physical volume of supplies (by 25.3 and 6.7 percent respectively).

The export of other products of garment industry also decreased. It should be noted that decrease in the physical volume of supplies of the aforementioned products was accompanied by decline in the average export prices.

<sup>2</sup> "Social and economic situation in the Kyrgyz Republic (January-September 2013)", NSC KR.

<sup>3</sup> In January-September 2013, the average world price for 1 gold ounce amounted to USD 1 455.7, having decreased by 11.8 percent as compared to the corresponding period of 2012; source: Reuters.

<sup>4</sup> According to the Decree of the Government of the Kyrgyz Republic "On introducing amendments and additions to some resolutions of the Government of KR" №573 dated August 17, 2012, the unified rate of the customs fees and taxes imposed on certain types of goods imported by land transport was increased from USD 0.15 to 0.35 per 1 kg.

<sup>5</sup> According to the NSC, in January-September 2013, the volume of textile and garment industry output decreased by 12.3 percent.

\* NSC data in f.o.b. prices, excluding estimates of NBKR and NSC

According to the results of nine months of 2013, real growth of **agricultural** output constituted 4.2 percent<sup>6</sup>, which is mainly conditioned by growth of crop output. In the reporting period, export of live animals increased by 40.5 percent (or by USD 2.3 million), meat and meat products - by 33.5 percent (or by USD 1.5 million), vegetables - by 2.5 percent (or by USD 1.4 million), fruits - by 2.4 percent (or by USD 1.0 million), other food products - by 40.8 percent (or by USD 1.0 million). It should be noted that growth in the supplies of the aforementioned goods was primarily provided by rise in export prices. Moreover, significant decrease was observed in export of diary products (by 67.0 percent or by USD 13.4 million), cotton (by 59.4 percent or by USD 11.0 million), skins of bovine or equine hides and rawhide (by 26.8 percent or by USD 0.9 million) and products from cereals, flour or starch (by 22.0 percent or by USD 0.7 million). Decrease in export of the aforementioned goods was primarily due to decline in the physical volume of export.

In January-September 2013, 17.1 percent of export constituted recorded **re-export**<sup>7</sup>, which amounted to USD 180.9 million, having increased by 23.1 percent as compared to nine months of 2012. The basis for re-export consisted of machines and equipment, as well as their spare parts, inorganic substances, cast iron and steel, as well as other products.

<sup>7</sup> Re-export is the export of foreign goods from the country (earlier manufactured in other countries or imported), where they were earlier imported without any significant transformations, compared to their condition, in which they were initially imported.

Based on the results of the reporting period, insignificant changes were observed **in the geographical structure.**

As in January-September 2012, the countries of the Customs Union remain the major trading partners of the Kyrgyz Republic. The total share of the Russian Federation, Kazakhstan and Belarus constitutes 40.9 percent of the country's export. The share of Switzerland in the total volume of export, despite insignificant decrease in the volume of gold export, remain stable (24.8 percent). Increase in the export of rubber tires, cast iron, steel and vehicles (mainly re-exported) to Uzbekistan contributed to increase of its export share from 10.1 to 11.8 percent. Generally, in the reporting period, the Kyrgyz Republic exported goods to 84 countries of the world (in January-September 2012 goods were exported to 81 countries).

The geographical distribution of separate goods indicates that, excluding gold, the CIS countries are the main markets for sale of domestic goods. At that, high geographic concentration is evident on the most significant exported goods.

\* NSC data at c.i.f. prices

In the reporting period, vehicles and transportation equipment had the most significant share in the **goods structure** (25.0 percent). In the reporting period, cost volume of imported goods from the aforementioned group increased by 10.0 percent and amounted to USD 1 069.0 million. Increase in imports of motor-cars and passenger cars, as well as pre-owned motor cars had the major impact on growth of this group (growth by 11.6 percent and by 2.7 times respectively). At that, decrease in imports of vehicles for cargo transportation and special purpose motor vehicles by 35.4 percent (or by USD 50.5 million) had a restraining impact on growth of the aggregate volume of imported goods from the aforementioned group.

It should be noted that separate goods of this group are partially imported for further re-export: vehicles for cargo transportation and special purpose motor vehicles, spare parts and accessories for the motor vehicles, aircrafts and associated equipment, etc.

The share of the group "mineral fuel, lubricants and similar materials" in the first half of the current year decreased by 0.3 percentage points and constituted 21.0 percent (USD 895.6 million in total). The prevailing share in the group is given to petroleum products.

In the reporting period, there was increase in the volume of imported petroleum products by 15.4 percent. The aforementioned growth resulted from increase in the physical volume of import by 20.5 percent compared to the corresponding indices of January-September 2012, while average contractual prices for imported petroleum products decreased by 4.2 percent. The main contribution to growth of lubricants import were made by diesel fuel and motor petrol, the volume of import thereof increased by 33.4 and 5.3 percent respectively (by USD 32.4 and 22.6 million respectively in absolute terms).

Besides the lubricants, a significant share in this group is given to natural gas and coal. In the reporting period, supplies of coal increased by 43.7 percent, while import of natural gas decreased in terms of value by 16.1 percent as compared to January-September 2012.

The share of manufactured goods, classified by the type of material did not suffer significant changes and constituted 17.0 percent of the total volume of imported goods. More than one fourth of this group is occupied by cast iron and steel, import thereof in the reporting period of 2013 increased by 23.2 percent compared to nine months of 2012. The other significant goods of this group include rubber tires, textile fabrics, various paper and metal products, construction materials. In the reporting year, growth of cost amount was observed on almost all imported large goods of this group.

There were no significant changes in the **geographic distribution** of import in the reporting period.

The Russian Federation remains the main supplier of lubricants. Import of basic food products was generally carried out from the CIS countries. The largest groups of food products, such as cereals and their products, sugar, vegetable oils and other food products are imported from these countries.

The share of non-CIS countries is more evident in the structure of imported non-food consumer products: the aggregate share of China and Turkey in the supplies of clothing exceeded 95.0 percent, in the import of footwear - 87.0 percent. The import of cars from Japan, Germany, China and the USA constituted 67.3 percent.

Generally, in the reporting period, import to the Kyrgyz Republic was carried out from 128 countries of the world as in January-September 2012.

## BALANCE OF INTERNATIONAL SERVICES<sup>8</sup>

The increased volume of foreign trade in the Kyrgyz Republic was supported by increase in the turnover of international services, which, according to the results of nine months of 2013, increased by 23.5 percent, having reached the level of USD 2 030.9 million.

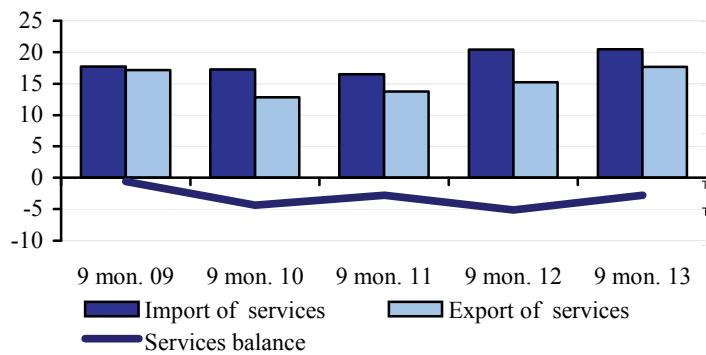

**Chart 3. External service and goods trade\***  
(in millions of US dollars)

\* including estimate of NBKR and NSC

to 73.6 percent of goods export and 17.6 percent to GDP. **Import of goods** amounted to USD 1 075.1 million, which constituted 27.2 percent of goods import and 20.4 percent to GDP.

**Chart 4. Balance of International services**  
in percent of GDP

the citizens of the Kyrgyz Republic during their stay abroad (growth by 75.8 times).

Within nine months of 2013, the balance of transportation services was traditionally negative in the amount of USD 333.7 million, having increased by 0.2 percent compared to January-September of 2012. Moreover, decline in the turnover of transportation services was observed due to decrease in the export and import of the aforementioned services. Decrease in the volume of transportation services provided to non-residents (by 2.1 percent) was primarily due to decline in the export of automobile transportation services by 44.1 percent. In addition to growth in the imports of railway services by 6.9 percent, the services in the sphere of aircraft and automobile transportation provided to the residents of the country decreased (by 10.5 and 16.8 percent respectively), which resulted in decline in the volume of transportation services by 0.5 percent.

Net export of business services formed in the reporting period with a positive balance in the amount of USD 22.0

<sup>8</sup> The data since 2008 are revised by the NSC.

million (USD 15.8 million with a negative value in January-September 2012), which resulted in outpacing decrease in the import of business services (by 47.1 percent) compared to their export (by 24.3 percent). The main factor, which influenced the decline in import of business services, was significant decrease of consultation services provided to the residents of the Kyrgyz Republic. Decrease in the export of aforementioned services is conditioned by decline in the export of services in the mining sector and the services on land and real estate leasing.

## INCOME

In January-September of 2013, the balance of "income" article traditionally formed negative and constituted USD 235.3 million (4.0 percent to GDP), having increased by USD 85.4 percent as compared to the corresponding index of nine months of 2012.

This trend is mainly due to increase of income of direct foreign investors from investing activity in Kyrgyzstan, which is reflected in the growth of reinvested profit of enterprises from USD 66.0 to 177.5 million (growth by 2.7 times). The volume of distributed incomes of resident companies in the form of dividends for the benefit of direct foreign investors increased by 26.2 percent and amounted to USD 12.0 million. As a result, the deficit of incomes on direct investments increased by 2.5 times and reached USD 189.4 million.

In the reporting period, there was increase in payments of interests on earlier received credits by 12.6 percent (up to USD 42.7 million), primarily due to increase of payments on private credits unsecured by the government. Moreover, increase of other incomes by 39.8 percent was observed on other investments. It contributed to increase in the deficit of "incomes from other investments" article by 3.2 percent (up to USD 29.2 million).

In the reporting period, the balance of "remuneration of labor" article formed negative and constituted USD 16.7 million (decline by 28.1 percent). This trend was conditioned by decrease in aggregate incomes of non-residents received from labor activity in the Kyrgyz Republic.

## TRANSFERS

The positive balance of **current transfers** according to the results of nine months of 2013 constituted USD 1 591.8 million (31.6 percent to GDP), having increased by 11.0 percent as compared to the corresponding period of the last year.

The core role in the current transfers account still belongs to the **private transfers** (neutral presentation of the balance of payments); net inflow thereof increased by 9.7 percent and amounted to USD 1 569.5 million.

Aforementioned growth was traditionally provided by inflow of workers' remittances, which occupy 98.0 percent of the total private transfers received. Transfers under this article continue growing: net inflow of the workers' remittances amounted to USD 1 524.0 million, having increased by 8.3 percent as compared to nine months of 2012.

<sup>1</sup> Remittances exceeding 3000 US dollar are not taken into account<sup>2</sup> Additional estimation coefficient of 10% is used for assessing remittances which migrants inflow in cash**Chart 5. Balance of remittances and Net Export of Consumer Goods**

in percent of GDP

The main channel for inflows of the workers' remittances to the republic is the range of transfer systems<sup>9</sup>. Moreover, steady upward trend was observed in the share of funds received through transfer systems in the total volume of remittances: if at the end of nine months of 2009 it amounted to 90.1 percent, in January-September of the current year - 91.8 percent of the gross income of remittances. In the reporting period, net inflow through transfer systems increased by 8.5 percent, having reached USD 1 383.8 million<sup>10</sup>. At that, the geographical structure of remittances remains the same. According to the results of nine

months of the current year, the major share of remittances was received from the Russian Federation (97.9 percent). The share of other countries is much lower: 1.2 percent of remittances were received from Kazakhstan, 0.7 percent - from the USA. In the structure of remittances transferred from the Kyrgyz Republic, the dominant share is occupied by the Russian Federation (97.6 percent).

Remittances remain the major source of trade deficit financing. The balance of remittances still covers net export of consumer goods, which formed with a negative value in the amount of USD 1 170.7 million.

In the reporting period, the balance of current transfers in **the government sector** (neutral presentation of the balance of payments) formed positive in the amount of USD 22.4 million, having significantly increased as compared to nine months of 2012 (USD 2.7 million). The volume of grants received by the government sector amounted USD 24.3 million, whereof the largest grant in the amount USD 20.0 million was provided by the Russian Federation in the third quarter of 2013. The volume of membership fees attracted in the international organizations decreased by 8.2 percent and amounted to USD 1.9 million.

<sup>9</sup> Anelik, Blizko, Contact, Migom, MoneyGram, Western Union, Unistream, Zolotaya Korona, Leader, Bystraya Pochta, Allyur and other money transfer systems and remittances via the PE "Kyrgyzpochtasy".

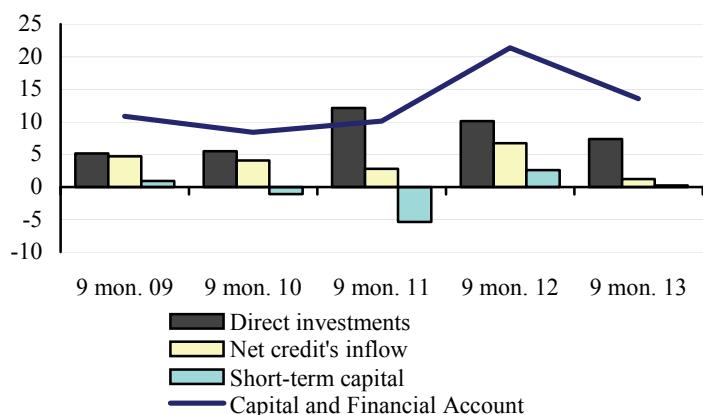

<sup>10</sup> Without additional estimates of the NBKR.

## CAPITAL ACCOUNT AND FINANCIAL ACCOUNT

According to the results of nine months of 2013, the balance of the **capital account and financial account** formed with a positive value in the amount of USD 759.9 million (13.6 percent to GDP), having decreased by 6.3 percent as compared to the corresponding index of the same period in 2012. At that, decrease in the capital inflow was observed on the financial account, meanwhile, significant increase of inflow was observed on the capital account.

**Chart 6. Capital and Financial Account**

*in percent of GDP*

The balance of the **capital account** formed positive in the amount of USD 246.3 million, having increased by 3.1 times compared to the level which was reached within the period of nine months of 2012. Significant increase in the positive balance of the capital account was conditioned by writing off the debt by the Russian Federation in the amount of USD 188.9 million in accordance with the Agreement between the government of the Russian Federation and the Kyrgyz Republic on regulation of the debt of the Kyrgyz Republic before the Russian Federation on the previously provided loans.

In the reporting period, the **financial account** formed with positive balance in the amount of USD 513.6 million, having decreased by 29.7 percent as compared to January-September of 2012.

Within nine months of 2013, net inflow of **direct investments** constituted USD 534.9 million, having increased by 72.1 percent as compared to the corresponding period of 2012. Increase of net inflow of funds invested into other capital by 54.6 percent (up to USD 349.3 million) had major impact on growth of direct investments primarily due to loans received by the enterprises, operating in the sphere of geological exploration, from foreign stakeholders. In the reporting period, net inflow of reinvested earnings increased by 2.7 times and amounted to USD 177.5 million. At that, net inflow of funds invested into stock capital decreased by 57.4 percent and amounted to USD 8.1 million.

In the reporting period, in the section by types of economic activity the major net inflow of direct investments was observed in the operations with real estate, rent and provision of services to the consumers<sup>11</sup>, as well as in the processing industry and financial sector. At that, the most significant increase in the reporting period was observed on the investments of enterprises in the sphere of real estate, rent and services (growth by 3.2). In the geographical structure of direct investments the capital inflow was observed from Canada, China, Great Britain and the Russian Federation.

In the period under review of 2013, the balance of **portfolio investments** formed with a positive value in the amount of USD 2.4 million, having decreased by 57.4 percent as compared to nine months of 2012.

According to the results of January-September 2013, net volume of **other investments**, attracted to the republic, formed negative and amounted to USD 20.8 million, while this index was positive in the corresponding period of 2012 (USD 414.2 million).

In the reporting period, the residents' assets increased by USD 163.2 million, meanwhile they decreased by USD 114.0 million in the corresponding period of the last year. At that, the most significant growth was provided by

<sup>11</sup> According to the NSC KR classification, this group includes exploration works.

## THE CURRENT STATUS OF THE BALANCE OF PAYMENTS

---

increase in the assets of the commercial banks by USD 116.0 million, in the residents' accounts receivable by USD 76.8 million. As of the end of October 2013, generally, more than 87.4 percent of the gross volume of accounts receivable<sup>12</sup> was accounted for the enterprises of processing sector, enterprises carrying out operations with real estate, rent and rendering services to the consumers, as well as companies operating in the sphere of trade and repair works.

Moreover, decrease by USD 33.6 million in the residents' assets, placed onto their accounts in the foreign banks was observed in the reporting period. It should be noted, that as of the end of September 2013, 82.3 percent of the total cash balance on the accounts of the enterprises outside their national territory accounted for the enterprises of the processing sector.

In the reporting period, liabilities on other investments to the external world increased by USD 142.4 million. Growth of liabilities was conditioned by increase in accounts payable of the residents.

In the reporting period, the accounts payable of resident enterprises increased by USD 124.5 million. Generally, the main share in the total volume of accounts payable is occupied by the enterprises operating in the sphere of processing sector, trade and repair works, transport and communication (75.9 percent of the total amount of accounts payable<sup>13</sup>).

Net inflow of external loans in the amount of USD 6.2 million was observed in the reporting period. Payments of the government sector on the principal amount of the previously received credits (USD 218.8 million) exceeded the level of credits received in the reporting period (USD 216.3 million), as a result of which the net inflow of credits constituted USD 6.2 million in this sector. It should be noted that formation of the last indicator was effected first of all by writing off the debts of the Kyrgyz Republic by the Russian Federation. The volume of payments on the maintenance of the previously received credits by the private sector reached USD 300.3 million, whereas the inflow of credit funds constituted USD 296.6 million. As a result, the net inflow of credits to the private sector amounted to USD 3.7 million.

According to the results of nine months of 2013, the **total balance of payments** was positive and constituted USD 114.2 million.

The "**errors and omissions**" article was positive in the amount of USD 769.8 million. Positive value of this article indicates incomplete statistical coverage of operations with capital inflows to the country or exports of goods and services. Currently, for the purposes of decreasing in the index of the aforementioned article, the National Bank carries out activities on statistical coverage improvement of the balance of payments indices. Taking into account the additional estimates of the National Bank, the balance of the "errors and omissions" article constituted USD 216.3 million.

Gross international reserves at the end of September 2013 constituted USD 2 104.9 million, which covers 3.5 months of the future import of goods and services.

---

<sup>12</sup> Excluding debt of direct foreign investors to the resident enterprises of the Kyrgyz Republic.

<sup>13</sup> Excluding debt of resident enterprises to the direct foreign investors.

Comment:

\* including the allocation of SDR between the IMF countries-members to support their balance of payments had the impact on the value of foreign liabilities. As a result, the liabilities of the Kyrgyz Republic increased by US\$ 132.2 billion.

Long-term investments are investments in financial assets, whose initial maturity was set up, in compliance with a contract, as more than one year or has never been stipulated

Short-term investment are investments in financial assets, with maturity of one year or less than one year, pursuant to contract, or paid as short notice

**Table II.1: Sources of Information Used by the National Bank  
for Compilation of the Balance of Payments of the Kyrgyz Republic**

Items of the Balance of Payments	Sources of information	Contents of information
<b>Current account</b>		
<b>Commodities</b>		
Export of goods (F.O.B.)		
export	NSC	
commodities purchased in ports	NSC	
nonmonetary gold	NSC	
Import of goods (F.O.B.)		
import (C.I.F.)	NSC	
value adjustment	NSC	NSC estimate of the share of transport and insurance services in import at C.I.F. prices on the basis of survey of enterprises
commodities purchased in ports	NSC	data on import of bunker fuel based on reports of enterprises according to form 1-services
<b>Services</b>		
Transportation services	NSC, CB	estimates NSC of the share of transportation costs in import at C.I.F. on the basis of inspection of the enterprises
Travels	NSC	estimate in compliance with the methodology based on the number of residents arriving (leaving) in the Republic (from the Republic)
Communication services	NSC, MTC	
Construction	CB	
Insurance services	NSC, enterprises, CB	NBKR assessment by the share of costs in import at C.I.F. prices on the basis of surveys of enterprises; data from enterprises and banking statistics
Financial services	NBKR, CB	
Computer and information	CB	
Government services	MFA, CB	data on maintenance expenses of the KR representative offices abroad; data on expenses of foreign representative offices in the KR
Business services	NSC, CB, enterprises	data on other business technical services, collected from enterprises according to reporting form 8VES-services; data from some large enterprises
including technical assistance	IMF, MF	the estimated data
Other services	NSC, CB	data on other services collected from enterprises according to reporting form 8 VES-services; data on other services from banking statistics
<b>Income</b>		
Employee compensation	NSC, CB, enterprises	
Income on investment		
Income on direct investment	NSC, CB	data on direct investment income collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment income
Income on portfolio investment	NBKR, CB	
Other investment income		
Interest on loans		
Monetary authorities	NBKR	
General government	MF, NBKR	
Banks	CB	
Other sectors	NSC	
Other investment income	NBKR, CB	data on profit and expenses of the NBKR, relating to international reserve management; incomes of CB from abroad assets and liabilities

**Table II.1: (continued)**

<b>Items of the Balance of Payments</b>	<b>Sources of information</b>	<b>Contents of information</b>
<b>Current transfers</b>		
Humanitarian aid	NSC, enterprises	
Technical assistance	IMF	the estimated data
Other grants	NBKR	
Contributions to international	MF	
Workers' remittances	MT&C, CB, NBKR	
<b>Current and financial account</b>		
<b>Capital transfers</b>		
Commodity grants	NSC	estimate of the share of capital goods in the total volume of commodity grants
Migration related transfers	NSC	NBKR estimate of migrants' transfers based on NSC data on the number of arriving and departing migrants
Debt forgiveness	Enterprises, MF	
<b>Direct investment</b>		
Abroad	NSC	
To the Kyrgyz Republic	NSC, CB	data on direct investment collected from joint ventures and foreign enterprises according to reporting form 1-SP; data from banking statistics on direct investment into the banking sector; data of some
<b>Portfolio investment</b>
